Transfer Volume Details

Sellers Nominated Transfer Volume (ML) Water Year _____ / _____

Transfer Statement

This application is made under the standard Water Supply Contract and is a Seasonal Water Assignment under the Water Act 2000. The Seller warrants that they have sufficient water available under their contract with Fairbairn Irrigation Network Ltd for the proposed temporary transfer. The Seller requests to reduce the volume available to them by the Nominated Transfer Volume and the Buyer requests to increase the volume available to them by the Assessed Volume. The Buyer warrants they have approval under the Integrated Planning Act for their pump taking the water. The Buyer and Seller acknowledge that they have read and agree to the Transfer Conditions on the back of this form and acknowledge that in addition to the Transfer Conditions this application will be assessed by Fairbairn Irrigation Network Ltd in accordance with the Local Conditions for the water supply scheme in place on the day that SunWater receives this application. This form must be signed by **ALL** those listed as Customers on the Water Supply Contract or listed as holders of the Interim Water Allocation/Water Allocation ("Relevant Signatories"). The Relevant Signatories may sign this form personally, or an authorised person may sign on their behalf. Fairbairn Irrigation Network Ltd accepts the signatures of persons who have been duly authorised by signed correspondence from the contract holders, and persons authorised to sign under a relevant Power of Attorney, where a copy of that Power of Attorney is attached/already submitted. Authorised persons should specify on whose behalf they are signing, and whether they are signing under an Appointment of Agent Form or a Power of Attorney.

1. What is an intra system temporary transfer

An intra system temporary transfer enables two customers to transfer available water in the current water year through Fairbairn Irrigation Network Ltd account management system and does not involve Sunwater. The seller's remaining available water for the water year will be reduced by the Nominated Transfer Volume. The water available to the buyer will be increased by this volume. The volume available to the buyer is not affected by any increases in Announced Allocation during the water year. Temporary transfers do not alter the buyer or seller's access conditions for taking water from a channel or pipeline.

2. Volume that can be transferred

The maximum amount the seller may transfer is the volume available to the seller on their water account at the time of application. By signing this form, the seller warrants they have sufficient water available for the temporary transfer. The Seller is encouraged to check their meter reading to determine if such water is available. Available water balances can be obtained by contacting Fairbairn Irrigation Network Ltd office on 4982 4446 or email request to admin@fairbairnirrigation.com.au

If the Seller applies to transfer more than their available water, they will be in breach of their supply contract with SunWater.

3. Application

To apply for a transfer, both the buyer and seller must complete and sign this application form and submit it either by Email or Mail as per the details above. End of Water Year applications - Please ensure the application form is submitted at least five (5) business days prior to the end of the current water year. Fairbairn Irrigation Network Ltd will notify the buyer and seller within 5 business days of receiving all applications (correctly completed) whether the temporary transfer has been approved or refused. The rules applied are governed by the Customers Distribution Contract and the Distribution Rules and Standards available on our website, www.fairbairnirrigation.com.au
